## FISCAL ANALYSIS

### ASSUMPTION

Officials from the **Department of Revenue (DOR), Division of Motor Vehicle and Drivers Licensing** stated this legislation will have minimal administrative impact on the Division of Motor Vehicle and Drivers Licensing and can be implemented with existing resources.

However, it will require systems modifications to the Field Automated System for Titling and Registration. This system is changed and modified by the Motor Vehicle Bureau's current vendor UNISYS, Inc. The Motor Vehicle Bureau has requested a cost estimate for this change; however, at this time a response has not been received.

Officials from the **Budget and Planning** stated this legislative proposal should not result in additional costs or savings to their agency. The proposal would have an increase in total state revenue. They defer to the DOR for revenue estimates.

**Oversight** assumes the DOR could absorb the additional cost required to modify the Field Automated System for Titling and Registration related to this proposal.

### FISCAL IMPACT - Small Business

A direct fiscal impact to small businesses operating fee offices would be expected as a result of this proposal.
